REMARKS

Applicant has carefully reviewed and considered the Office Action mailed on 5/18/2005.

In the office action summary, the examiner stated that claims 1-51 were pending in the application. In the body of the office action (paragraphs 1, 2, 3, and 5), the examiner identified several grounds for rejecting claims 1-50 and noted that claim 51 was allowed.

In response, applicant notes that claims 1-51 had been canceled by Preliminary Amendment filed on October 28, 2003. However, based upon a telephone discussion with the examiner on November 17, 2005, Applicant has determined that since the examiner has examined claims 1-51 and found claim 51 allowable, Applicant will amend the application to put it in condition for allowance by canceling all of the previously pending claims (1-90), without prejudice, and submitting a new claim 91 that is copied verbatim from original claim 51, which the examiner indicated was allowed.

Accordingly, applicant submits that the rejections of claims 1-50 are moot and should be withdrawn. In addition, applicant submits that the only claim remaining in the application is identical to claim 51, which the examiner has indicated is allowed.

Conclusion

Applicant respectfully submits that the pending claim is in condition for allowance and notification to that effect is earnestly requested. The Examiner is invited to telephone Applicant's attorney (781-457-4717) to facilitate prosecution of this application.
